Los Arqueros Golf

Calanova Golf

Marbella the 18 hole layout was designed to provide a testing but enjoyable game for golfers of different abilities. Bunkers abound and the rough can be difficult for shots that stray. Several lakes, which enhance the scenic value of the course particularly on the back nine, have to be successfully negotiated to preserve a reasonable score-card. Every hole is unique in design and character.

Los Arqueros Set in the mountains on the road to Ronda the layout is breathtaking in more way than one. The opening was eagerly awaited and has not been a disappointment. Now with new owners in charge the club is benefiting from a program of improvements and rejuvenation. Located five kilometres from San Pedro de Alcántara it is well worth a drive into the mountains.

Estepona Golf The design uses the natural landscape which is set against the Sierra Bermeja mountain range. The fairways are wide and the greens large which provides a challenge for players of all levels, but doesn't penalise the average golfer. There are many palms, eucalyptus and wild olive trees on the course, and players have a great opportunity to enjoy many rare species of wildlife, particularly on the second half.

Calanova Golf when designing these 18 holes Manuel Pinero has come up with a course that medium handicap players will find is a pleasure, yet challenging to play. Strategically placed bunkers and lakes populate the course, and it's hard to believe this green and tranquil sanctuary is only minutes from the coastal village of La Cala.
