Los Arqueros Golf

Dona Julia Golf

Los Arqueros Set in the mountains on the road to Ronda the layout is breathtaking in more way than one. The opening was eagerly awaited and has not been a disappointment. Now with new owners in charge the club is benefiting from a program of improvements and rejuvenation. Located five kilometres from San Pedro de Alcntara it is well worth a drive into the mountains.

Dona Julia Golf has two very different layouts, being suitable for any type of players; the first 9 holes are longer and more difficult, winding between indigenous trees, lakes and rivers. While the back 9 holes are more manageable, having a gentle incline and being within close proximity to the sea. An undoubtedly challenge for professionals as well as high handicappers.

Estepona Golf

La Duquesa Golf

Estepona Golf designed by Jos Luis Lpez and first opened in 1989. The design uses the natural landscape which is set against the Sierra Bermeja mountain range, and enjoys sea views from most parts of the course. The fairways are wide and the greens large which provides a challenge for players of all levels, but doesn't penalise the average golfer. There are many palms, eucalyptus and wild olive trees on the course, and players have a great opportunity to enjoy many rare species of wildlife, particularly on the second half

La Duquesa Golf course, designed by Robert Trent Jones is located in the midst of a spectacular landscape, with magnificent views over the Mediterranean, Gibraltar and to Africa. It has five par 3's, eight par 4's, and five par 5's, with two small man-made lakes. It offers an interesting and varied game due to its long fairways and has two clearly different parts. The first 9 holes are of a certain "English style" with narrow fairways and high greens. The second 9 are easier with wide fairways, although the green will supply additional difficulties.
