Roda Golf

Corvera Golf

Roda Golf PGA Championship course with its lush, rolling fairways, lakes and palm trees, the Roda Golf Course is going to look glorious. But this beauty is no accident. The course's stunning landscaping is the result of careful planning and technical expertise. Whether it's a tree, plant, bush or the grass under your feet, you'll find the course's flora has been carefully chosen. The designers have taken into account their appearance, capacity for adaptation to the region's climate and water requirements, as well as their general ability to integrate into the landscape.

Corvera Golf PGA Championship course, Olazabal's experiences and very personal visions of golf are reflected in each of the projects designed by IGD. Furthermore, each course benefits from his ability to realise an overall vision from the perspective of the complete golfer. His creations make stunning use of their natural surroundings and offer a thrilling test for golfers of all levels. And as you would expect the course has been designed to fully comply with the exacting PGA standards. Corvera Golf & Country Club will become the "PGA's of Europe Training Academy", where golfers from all over Europe will have the opportunity to train all year round.

La Serena

Lo Romero

La Peraleja

La Serena Golf course, occupying an expanse of land right next door to the Mar Menor. The course is mainly flat, therefore difficulties will be the prevailing wind, La Serena is a challenging course with water playing an integral part on every hole and strategically well placed bunkers protecting the spacious greens, having an area of 600m2 and some exceeding 1,000m2, a great challenge for low handicappers as well as the high.

Lo Romero Golf is a very special 18-hole course. Its varied and meticulous design adjusted to the gentle relief and Mediterranean vegetation makes it an ideal place to play golf. One of the newer courses in the area Lo Romero Golf is already making a big name for itself thanks to the verdant qualities of its parkland. The course was designed by Jorge Gallen and Enric Soller and its very lushness makes it a much different challenge to many of the courses in the region.

La Peraleja Golf course has been designed and projected by Severiano Ballesteros, one of the greatest ever golfers. Peraleja Golf course has 18 holes, a distance of 6250 metres and par 72, shaped by gently undulating land and strategically placed obstacles that constantly challenge the players the entire round through, making the play a unique and unrepeatable experience.
